

## Learn More About How to Get Started

Bottom line, employee monitoring technology offers some very important big picture benefits to businesses both large and small, including:

- + Better Productivity
- + Operational Efficiency
- + Increased Profitability
- + Stronger Security and Compliance
- + Happier Employees

We can help you get started reaping the benefits of employee monitoring with a respectful and legal employee monitoring program. PCMag Editors' Choice for Best Employee Monitoring, Intuate Group is the only cloud-native solution of its kind, making it flexible, affordable, and easy to deploy across an entire organization.

Only Intuate Group delivers contextual user activity monitoring for the digital workplace. Unlike traditional employee monitoring solutions that offer only a technical view of users, Intuate Group delivers rich, contextual user activity insights through the human vantage point by unifying actions, context and intent across a comprehensive set of digital environments.

Get Started today. You'll be up and monitoring in minutes!
